

RATE SCHEDULE #13

Lyon-Lincoln Electric Cooperative, Inc.

PRAIRIEWINDS GREEN TAG RATE

The purpose of this rate is to implement the East River Electric Green Tag Rate and establish the qualification criteria and rate for the sale of Green Tags from the PrairieWinds Energy in Motion marketing program to Lyon-Lincoln Electric Cooperative's (LLEC) member-owners. Green Tags are the intangible, generally perceived environmental benefits associated with producing electricity from a renewable energy source such as wind, small hydro, solar, or biomass.

A. Eligibility: All LLEC member-owners are eligible for purchasing Green Tags from the PrairieWinds Energy in Motion marketing program under the Green Tag Rate provided the following requirements are satisfied:

1. All Green Tags purchased under this rate shall be marketed under the PrairieWinds Energy in Motion marketing program and meet the standards of the program.
2. LLEC will sell the green tag to the member-owner and the member-owner agrees that Green Tag cannot be resold to additional parties.
3. All other criteria of the East River Electric Green Tag Rate must be met.

B. Availability: This rate shall be available to each member-owner until the termination of this rate by East River or LLEC Board action.

C. Rate: The Lyon-Lincoln Electric Green Tag Rate shall be:

- \$1.00 per green tag and shall represent the equivalent of 1 MWH of green energy attributes or \$.10 per 100 kWh block.

D. LLEC shall report Green Tag sales to East River as they occur.

E. Review: This rate shall be reviewed at least annually.
