**Section 1.** The amount of the authorized capital stock of this association shall be Twenty-five Thousand (\$25,000.00) Dollars, divided in to Five Thousand (5,000) shares of the par value of Five (\$5.00) Dollars each. **Section 2.** The ownership of the capital stock in this Association by any individual stockholder shall not exceed the par value of Five Hundred (\$500.00) Dollars.

**Section 3.** Individual stockholders shall have only one vote in the affairs of this Association and the shares of stock of this Association shall not be transferable except with the approval and consent of the Board of Directors of this Association.

**Section 4.** No interest or dividends shall be paid upon any of the capital stock issued by this Association.

**Section 5.** The Association shall at all times be operated on a cooperative non-profit basis for the mutual benefit of its patrons. No interest or dividends shall be paid or payable by the Association on any capital furnished by its patrons.

In the furnishing of electric energy the Association's operations shall be so conducted that **all** patrons, members and non-members alike, will through their patronage furnish capital for the Association. In order to induce patronage and to assure that the association will operate on a non-profit basis the Association is obligated to account on a patronage basis to all its patrons, members and non-members alike for **all** amounts received and receivable from the furnishing of electric energy in excess of operating costs and expenses properly chargeable against the furnishing of electric energy.

All such amounts in excess of operating costs and expenses at the moment of receipt by the Association are received with the understanding that they are furnished by the patron, members and non-members alike, as capital. The Association is obligated to pay by credits to a capital account for each patron all such amounts in excess of operating costs and expenses. The books and records of the Association shall be set up and kept in such manner that at the end of each fiscal year the amount of capital, if any, so furnished by each patron is clearly reflected and credited in an appropriate record to the capital account of each patron, and the Association shall within a reasonable time after the close of the fiscal year notify each patron of the amount of capital so credited to his account. All such amounts credited to the capital account of any patron shall have the same status as though they had been paid to the patron in cash in pursuance of a legal obligation to do so and the patron had then furnished the Association corresponding amounts for capital.

In the event of dissolution or liquidation of the Association, after all outstanding indebtedness of the Association shall have been paid, and the par value of stockholders' shares returned, outstanding capital credits shall be retired without priority on a pro rata basis. If, at any time prior to dissolution or liquidation, the board of directors shall determine that the financial condition of the Association will not be impaired thereby, the capital then credited to patron's accounts may be retired in full or in part. Any such retirements of capital shall be made in conformance with determinations made by the board of directors as to the method, basis, priority, and order of retirement for all amounts theretofore and thereafter furnished as capital.

Capital credited to the account of each patron shall be assignable only on the books of the Association pursuant to written instruction from the assignor and only to successors in interest or successors in occupancy in all or a part of such patron's premises served by the Association unless the board of directors, acting under policies of general application, shall determine otherwise.

Notwithstanding any other provisions of these Articles, the Board at its discretion, shall have the power at any time upon the death of any patron who was a natural person, and the legal representatives of his estate shall request in writing that the capital credited to any such patron be retired prior to the time such capital would otherwise be retired under the provisions of these Articles, to retire capital credited to any such patron immediately upon such terms and conditions as the Board of Directors, acting under policies of general applications, and the legal representative of such patron's estate shall agree upon; provided, however, that the financial condition of the Cooperative will not be impaired thereby.

The patrons of the Association, by dealing with the Association, acknowledge that the terms and provisions of the Articles of Incorporation and Bylaws shall constitute and be a contract between the Association and each patron, and both the Association and the patrons are bound by such contract, as fully as though each patron had individually signed a separate instrument containing such terms and provisions. The provisions of this Article shall be called to the attention of each patron of the Association by posting in a conspicuous place in the Association's office.

In the event that the Association should engage in the business of furnishing goods or services other than electric energy, all amounts received and receivable therefrom which are in excess of costs and expenses properly chargeable against the furnishing of such goods or services shall, insofar as permitted by law, be prorated annually on a patronage basis and returned to those patrons, members and non-members alike, from whom such amounts were obtained.
